

(Address to **Your Employer's Name** HR Department),

This year I'm planning on donating to a non-profit that supports causes close to my heart. The CHRISCROSS Foundation is a 501(c)(3) headquartered in the suburbs of Chicago with a mission to bring awareness to mental health, addiction and suicide.

The funds raised by CHRISCROSS Foundation are directed to their valued partners, [Foundation House](#), [Aspiro Adventure Therapy](#) and the [American Foundation for Suicide Prevention](#) (AFSP). The money donated to Foundation House and Aspiro Adventure Therapy will help financially strapped families send their teen or young adult to their programs focused on those struggling with addiction and their mental health. The funds for AFSP will contribute towards their many programs centered on suicide prevention, research, education and change.

I'm a proud supporter of the CHRISCROSS Foundation and would like for **(Your Employer's Name)** to join me in raising money for their causes. I'd like to inquire about the **(Your Employer's Name)** matching gift program.

- Is this something that is available for employees?
- If a matching program exists, at what ratio to my individual contribution can **(Your Employer's Name)** contribute for 2022?
- If a matching program exists, what are the next steps?

Looking forward to hearing if **(Your Employer's Name)** is able to join me this year in helping those that struggle with their mental health, addiction and suicidal intentions through spreading awareness in each of those areas.

Thank you for your consideration!
